Target group	Oil & Gas Industry 29 CFR 1926.1205 29 CFR 1910.252(a)(2)(iv) 29 CFR 1926.1204
Prerequisites	No prerequisites are required to sit this course.
Objective	LO1: Describe the purpose of a permit to work system LO2: Explain the purpose of Job Safety Analysis LO3: Identify the elements of a permit LO4: Describe procedures that need to be followed to fulfil a permit to work LO5: Identify common types of permit
Contents	This course is available in the following languages: US English; Spanish; Turkish The aim of this course is to inform you about the purpose of permit to work systems and a Job Safety Analysis. You will be able to identify common permits and elements of a permit, together with being able to describe permit to work procedures. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.
Exam	The assessment is taken during the course and is within the expected duration.
