# Incident Prevention Awareness - OSHA Standards

| | |
|---|---|
| **Duration** | 20 Minutes |
| **Target group** | Oil & Gas Industry<br>29 CFR 1910.145<br>29 CFR 1926.200 |
| **Prerequisites** | No prerequisites are required to sit this course. |
| **Objective** | LO1: Define the two different types of incidents<br>LO2: Outline unsafe acts and conditions<br>LO3: Identify incident prevention methods<br>LO4: Describe safe work practices<br>LO5: Illustrate the importance of using signs and tags |
| **Contents** | The course is available in the following languages: US English; Turkish<br>The aim of this course is to give you an awareness of different types of incidents. You will learn about unsafe acts and conditions, as well as incident prevention methods. You will also be able to identify safe work practices and understand the importance of using tags and signs. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures. |
| **Exam** | The assessment is taken during the course and is within the expected duration. |
