Tuberculosis Awareness Course - OSHA Standards

Duration	20 Minutes
Target group	Oil & Gas Industry 29 CFR 1904.11 29 CFR 1910.134 29 CFR 1910.145
Prerequisites	No prerequisites are required to sit this course.
Objective	LO1: Define tuberculosis LO2: List the symptoms of tuberculosis LO3: Describe testing for tuberculosis LO4: Describe the treatment of tuberculosis LO5: State how to prevent the contracting of tuberculosis
Contents	The aim of this course is to provide you with an awareness of tuberculosis in the workplace. You will learn the definition of tuberculosis and common symptoms. You will also be able to describe testing for tuberculosis, how to treat it, and how to avoid contracting tuberculosis. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.
Exam	The assessment is taken during the course and is within the expected duration.
