Stop Work Authority Awareness - OSHA Standards

Duration	20 Minutes
Target group	Oil & Gas Industry 29 CFR 1977.12
Prerequisites	No prerequisites are required to sit this course.
Objective	LO1: Define Stop Work Authority LO2: Explain the meaning of imminent danger LO3: Describe the steps of the stop work procedure LO4: Explain how employee may handle unresolved safety issues and the conditions that must be met if an employee refuses to work LO5: Identify typical use of the SWA and when it does not apply
Contents	The course is available in the following languages: US English; Turkish. The aim of this course is to inform you about the meaning of imminent dangers and describe the steps of the stop work procedure. You will be able to explain how to handle unresolved safety issues and the conditions that must be met if an employee refuses to work. You will also identify typical uses of the Stop Work Authority and when it does not apply. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.
Exam	The assessment is taken during the course and is within the expected duration.
