Energy Isolations (LOTO) - OSHA Standards

Duration	60 minutes
Target group	Oil & Gas Industry 29 CFR 1910.147
Prerequisites	No prerequisites are required to sit this course.
Objective	LO1: Explain why energy isolation is required LO2: Explain the purpose of an isolation LO3: Describe key terminology used in isolations LO4: List the standard applicable to LOTO LO5: Explain who is typically involved in isolations LO6: Describe the training requirements for workers involved in isolations LO7: List and describe the 8 steps of isolation
Contents	The course is available in the following languages: US English; Spanish; Turkish. The aim of this course is to provide you with an overview of energy isolations; what they are, when we need them and why we need them; the key roles and responsibilities and the typical 8 steps within the process. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.
Exam	The assessment is taken during the course and is within the expected duration.
