Personnel Transfer and Evacuation Awareness - OSHA Standards

Duration	45 minutes
Target group	Oil & Gas Industry
Prerequisites	No prerequisites are required to sit this course.
Objective	LO1: Explain how to prepare for travel LO2: Identify prohibited and restricted items LO3: Describe procedures to follow after arrival at the shore base LO4: Explain how to safely travel on a marine vessel LO5: Describe the steps to follow in an emergency LO6: Describe the two methods of transferring from a vessel LO7: Explain the difference between collapsible and rigid baskets LO8: Explain helicopter transfer procedures LO9: Describe what to do in a helicopter emergency LO10: Outline the steps to take in the event of an evacuation
Contents	The aim of this course is to inform delegates about how to prepare for safe travel and travel safely both onshore and offshore and the steps to take in an emergency situation, including evacuation. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or “unscheduled” refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.
Exam	The assessment is taken during the course and is within the expected duration.
