## Helicopter Landing Officer

---

<b>Duration</b>	1 Day
-----------------	-------

---

<b>Target group</b>	This course is designed for persons who are to be appointed the role of an Offshore Helicopter Landing Officer (HLO).
---------------------	---

---

<b>Prerequisites</b>	Basic working knowledge of Helideck and Heli-ops required
----------------------	---

---

<b>Objective</b>	<p>The HLO (Helicopter Landing Officer) is the designated person who is trained to organize and supervise the safe and efficient helicopter operations, before, during and after take-off and landings on the helideck. This course provides basic training to delegates on awareness of the hazards encountered when dealing with Helicopter Operations at onshore and offshore installations to the OPITO guidelines and in accordance to CAP 437, and how to respond effectively and appropriately to emergencies on board these installations.</p>
------------------	--

---
