

OBS517

Shallow Water Compressed Air Emergency Breathing System (CA-EBS) Initial Deployment Training

Duration	Two (2) Hours
-----------------	---------------

Target group	Personnel travelling to an offshore oil and gas installation by helicopter who require additional training in a Compressed Air Emergency Breathing System (CA-EBS).
---------------------	---

Prerequisites	Delegates must possess a valid OPITO T-BOSIET/T-FOET/T-HUET, BOSIET/FOET/HUET with EBS (or Industry agreed equivalent) certificate prior to attending the OPITO Shallow Water CA-EBS Initial Deployment Training.
----------------------	---

Objective	<p>The aim of the additional CA-EBS training is to complement initial and further offshore safety and emergency response training and assessment (i.e. T-BOSIET, T-HUET or T-FOET) for personnel travelling to an offshore Oil & Gas installation by helicopter, and when issued with CA-EBS. The objectives of the additional CA-EBS training delivered in addition to the T-BOSIET, T-HUET, T-FOET or OPITO BOSIET/FOET/HUET with EBS programmes are to:</p> <ul style="list-style-type: none">•Ensure delegates are familiar with the use of the CA-EBS•Ensure that delegates understand their basic emergency response actions during a helicopter emergency using the CA-EBS
------------------	--

Contents	<p>Assessments are carried out against the OPITO standard Shallow Water Compressed Air Emergency Breathing System Initial Deployment Training ; OPITO Standard Code: 5903</p> <p>To successfully complete this training delegates must be able to demonstrate:</p> <ul style="list-style-type: none">•The donning of an aviation lifejacket, CA-EBS equipment and conducting integrity checks of the CA-EBS equipment, including buddy checks•Deploying (left and right hand) and breathing from CA-EBS equipment at atmospheric pressure in dry conditions•Following instruction from the crew, location of CA-EBS equipment and evacuation from a helicopter using a nominated exit, following a controlled emergency descent to a dry landing (conducted in helicopter simulator at poolside on dry land)•Actions to be taken in preparing for an in-water ditching including location of exit, deploying and breathing from CA-EBS equipment at atmospheric pressure in dry conditions (conducted in helicopter simulator at poolside on dry land) <p>The Learning Outcomes for these Modules which each delegate must demonstrate are as follows:</p> <ol style="list-style-type: none">1.The donning of an aviation lifejacket, CA-EBS equipment and conducting integrity checks of the CA-EBS equipment, including buddy checks2.Deploying (left and right hand) and breathing from CA-EBS equipment at atmospheric pressure in dry conditions
-----------------	---

-
3. Following instruction from the crew, location of CA-EBS equipment and evacuation from a helicopter using a nominated exit, following a controlled emergency descent to a dry landing (conducted in helicopter simulator at poolside on dry land)
 4. Actions to be taken in preparing for an in-water ditching including location of exit, deploying and breathing from CA-EBS equipment at atmospheric pressure in dry conditions (conducted in helicopter simulator at poolside on dry land)
 5. To successfully complete this training delegates must be able to demonstrate:
 6. The donning of an aviation lifejacket, CA-EBS equipment and conducting integrity checks of the CA-EBS equipment, including buddy checks
 7. Deploying (left and right hand) and breathing from CA-EBS equipment at atmospheric pressure in dry conditions
 8. Following instruction from the crew, location of CA-EBS equipment and evacuation from a helicopter using a nominated exit, following a controlled emergency descent to a dry landing (conducted in helicopter simulator at poolside on dry land)
 9. Actions to be taken in preparing for an in-water ditching including location of exit, deploying and breathing from CA-EBS equipment at atmospheric pressure in dry conditions (conducted in helicopter simulator at poolside on dry land)
-

Exam

Delegates will be assessed against the Learning Outcomes specified in the Content Section using direct observation and oral and/or written questions as appropriate.

Should a delegate encounter challenges to meet these Learning Outcomes, RON shall provide additional coaching as an opportunity to meet those requirements.
