## IADC WellSharp Drilling - Workover/Completion Surface & Subsea (Supervisor)

<b>Duration</b>	5 Days
<b>Target group</b>	The IADC WellSharp Supervisor Level Drilling course including the Workover/Completions supplement is designed for drilling personnel working in a supervisory role and engaged in completion and workover operations.
<b>Prerequisites</b>	Prior IWCF or IADC certification at Introductory or Driller Level is recommended but not mandatory. The training is role-specific so previous experience in an assistant driller or driller role during drilling operations is assumed. Please contact us to discuss delegate suitability if you have any doubts or queries.
<b>Objective</b>	The IADC WellSharp Supervisor Level Drilling course including the Workover/Completions supplement is essential training for those primarily involved in the operational decision-making process of well control during drilling, workover, and completion operations. The course aims to build on the Driller Level course content (including kick detection and shut-in) and focus on more complex aspects of well control and well kill methodology.
<b>Contents</b>	<p>The course is delivered over 5 days through presentation of a series of interactive lectures supported by videos and animations, supplemented by a classroom workbook and further self-study exercises and practical work on a drilling simulator.</p> <p>The following topics will be covered during this course:</p> <ul style="list-style-type: none"> <li>•Drilling, Workover &amp; Completion Plan - Awareness</li> <li>•Abnormal Pressure Warning Signs</li> <li>•Well Control Concepts</li> <li>•Kick Detection</li> <li>•Mud Pit Management</li> <li>•Well Control Drills</li> <li>•Pre Recorded Data</li> <li>•Post Shut In Procedures and Verification</li> <li>•Kick Prevention during Drilling</li> <li>•Post Shut in Monitoring and Activities</li> <li>•Casing and Cementing Operations</li> <li>•Risk Management</li> <li>•Barriers</li> <li>•Well Control Methods</li> <li>•Shallow Gas</li> <li>•Water Flows and Tophole Drilling</li> <li>•Hands-on simulation exercises will be conducted</li> </ul>
<b>Exam</b>	Successful completion of the course and a minimum score of 75% in the written assessment and 70% in the practical skills assessment will result in IADC WellSharp Supervisor Level certification which is valid for two years.
