

## Hydrogen Sulphide (H<sub>2</sub>S) Awareness

---

**Duration** 30 Minutes

---

**Target group** Oil & Gas Industry

---

**Prerequisites** No prerequisites are required to sit this course.

---

**Objective**

- LO1: Explain what H<sub>2</sub>S is
- LO2: Identify where H<sub>2</sub>S can be found
- LO3: Identify the properties of H<sub>2</sub>S
- LO4: Explain how H<sub>2</sub>S levels are measured
- LO5: Identify the exposure limits of H<sub>2</sub>S
- LO6: Describe the exposure effects of H<sub>2</sub>S on body
- LO7: Identify environmental hazards of H<sub>2</sub>S
- LO8: Identify ways of detecting H<sub>2</sub>S
- LO9: Know what to do in the event of an H<sub>2</sub>S emergency
- LO10: Identify what H<sub>2</sub>S training consists of

---

**Contents**

The course is available in the following languages: English; Brazilian Portuguese; Spanish; Norwegian; German; Dutch; Danish; Indonesian; Bahasa Malay; Thai; Russian

This H<sub>2</sub>S awareness course is suitable for all employees working in hazardous industries. The course outlines the principal properties of H<sub>2</sub>S, explaining why extreme caution is necessary when dealing with it and how to recognise the consequences and symptoms of H<sub>2</sub>S exposure.

---

**Exam** The assessment is taken during the course and is within the expected duration.
