

## Shallow Water CA-EBS Initial Deployment 5903

<b>Duration</b>	2 hours
<b>Target group</b>	<p>This Shallow Water CA-EBS Initial Deployment is for personnel travelling to an offshore oil and gas installation by helicopter who require additional training in a Compressed Air Emergency Breathing System (CA-EBS) will complete this training.</p> <p>Validity: The certificate expiry must align with that of the initial T-BOSIET/T-FOET/T-HUET, BOSIET/FOET/HUET with EBS (or Industry agreed equivalent) certificate.</p>
<b>Prerequisites</b>	<p>Training entry and medical entry requirements must be met. Learners must possess a valid OPITO T-BOSIET/T-FOET/T-HUET, BOSIET/FOET/HUET with EBS (or Industry agreed equivalent) certificate prior to attending the OPITO Shallow Water Compressed Air Emergency Breathing System Initial Deployment Training.</p> <p>Training activities contained within this Product may include physically demanding and potentially stressful elements. All personnel who participate in such activities must be capable of participating fully. Trainees will undergo a medical screening by completing an appropriate medical declaration form at center.</p>
<b>Objective</b>	<p>This Product is to complement initial and further offshore safety and emergency response training and assessment (i.e. T-BOSIET, T-HUET or T-FOET) for personnel travelling to an offshore oil and gas installation by helicopter when issued with a Compressed Air Emergency Breathing System (CA-EBS).</p> <p>The objectives of the additional CA-EBS training delivered in addition to the T-BOSIET, T-HUET, T-FOET or OPITO BOSIET/FOET/HUET with EBS programs are to:</p> <ul style="list-style-type: none"><li>(a) Ensure learners are familiar with the use of the Compressed Air Emergency Breathing System (CA-EBS)</li><li>(b) Ensure that learners understand their basic emergency response actions during a helicopter emergency using the CA-EBS</li></ul>
<b>Contents</b>	<p>The topics that will be covered during this course are;</p> <ul style="list-style-type: none"><li>- The principles of compressed air emergency breathing systems (CA-EBS)</li><li>- The principles of other typical emergency breathing systems (EBS) used in the oil and gas industry (i.e. re-breather systems)</li><li>- The components and elements of the CA-EBS</li><li>- The operation of the compressed air EBS equipment in conjunction with other survival equipment</li><li>- The hazards associated with compressed air EBS</li><li>- The pre-donning checks on the life jacket and compressed air EBS</li><li>- How to don the life jacket complete with compressed air EBS</li><li>- Deployment of CA-EBS</li></ul>

---

**Exam**

To achieve the Shallow Water Compressed Air Emergency Breathing System Initial Deployment Training the learner will need to complete the 1 mandatory unit.
