## IADC WellSharp Supervisor Level Well Control (Surface)

---

**Duration** 4 Days

---

**Target group** The IADC WellSharp “Well Control for Drilling Operations – for Supervisors” course has been designed for toolpushers, drilling engineers, drilling supervisors, superintendents, drilling foremen, company men and others with a requirement to hold an accredited well control certificate at Supervisory level. The training is role-specific and is focused on well kill procedures.

---

**Prerequisites** Prior IADC or IWCF certification at Driller or Supervisor Level is required. The training is role-specific so previous experience in a supervisory role during drilling operations is assumed. Please contact us to discuss candidate suitability if you have any doubts or queries.

---

**Objective** The IADC WellSharp Supervisor Level Well Control course is essential training for those working in wellsite supervisory roles and for office-based personnel that are primarily involved in the operational decision-making process and/or well design. The course aims to build on the Driller Level course content (including kick detection and shut-in) and focus on more complex aspects of well control and well kill methodology.

---

**Contents** The course is delivered over 4 days through presentation of a series of interactive lectures supported by videos and animations, supplemented by a classroom workbook and further self-study exercises and practical work on a drilling simulator.

The following topics will be covered during this course:

- > Drilling, Workover, Completion Plan-Awareness
  - > Well Control Drills
  - > Well Control Concepts
  - > Shut In Procedures & Verification
  - > Mud & Pit Management
  - > Post Shut In Monitoring & Activities
  - > Pre-Recorded Data
  - > Risk Management
  - > Kick Prevention during Drilling, Casing & Cementing Operations
  - > Well Control Methods
  - > Barriers
  - > Equipment
  - > Shallow Gas, Water Flows & Tophole Drilling
  - > Extract of Subsea Elements
  - > Abnormal Pressure Warning Signs
  - > Kick Detection
  - > Hands-on simulation exercises will be conducted
- 

**Exam** Successful completion of the course and a minimum score of 75% in the written assessment and 70% in the practical skills assessment will result in IADC WellSharp Supervisor Level certification which is valid for two years.
