City and Guilds Confined Space High Risk Control Entry

Duration	3 Days
Target group	The level 3 City and Guilds accredited training course is designed for workers who operate as a Top Man as part of a Confined Space Team operating within a confined space environment. Top Man is a supervisory role, responsible for leading a project above ground. Level 3 Award in Control Entry and Arrangements for Confined Spaces (6160-04) course.
Prerequisites	"You must provide valid photographic ID such as a Passport or Driving Licence. Must also have an appropriate level of fluency in English. Course material is also provided."
Objective	This Confined Space Awareness for Entry Controller (Topman) training programme is designed for operatives who may need to supervise an entry into a confined space. The Topman High Risk Confined Space Level 3 course equips delegates with the skills and knowledge to supervise and monitor safe working practices within a team operating in high risk confined spaces. The course incorporates a blend of theoretical and practical learning techniques. This confined space training course is designed for workers who operate as a Top Man as part of a Confined Space Team operating within a confined space environment. Top Man is a supervisory role, responsible for leading a project above ground. Confined Space Training High Risk is a level 3 (6160-04) course.
Contents	<p>"The Level 3 Award in Top Person for High Risk Confined Spaces course covers modules including overseeing the entry and exit of confined spaces, dealing with emergency situations, monitoring teamwork, and ensuring safety procedures are followed, acting as the safety attendant for teams operating within confined spaces, and working to regulation standards.</p> <ul style="list-style-type: none"> •Being the safety attendant for teams within the confined space. •Overseeing entry and exit of the confined space to ensure safety. •Monitoring work teams and ensuring safety procedures are followed. •Preparing for any emergency situations. •Dealing with emergency situations. •Behaving appropriately when carrying out Top Man work in High Risk Confined Spaces. •Using knowledge gained to carry out the task. •Working to regulation standards. •Summarise the requirements of the Confined Space legislation and the associated ACOP. •Select appropriate methods of risk control. •Be aware of appropriate safety equipment that may be used when entering a confined space."
Exam	Assessments include theoretical and practical evaluations that aim to identify a learner's ability to supervise and monitor safe working practices

in high risk confined spaces.
