

EBS001

High Voltage Awareness Training

Duration 1 Day

Target group Non-electrical or inexperienced persons

Prerequisites Not Applicable

Objective The aim of this course is to provide the learner with the knowledge and awareness of the procedures, risks and controls related to electrical equipment.

Upon completing the course, the learner will have the required knowledge to safely conduct activities in proximity to high voltage equipment or in high voltage environments.

Contents

- Typical tasks performed in High Voltage environments
- PPE & control measures
- Safe working distances
- Emergency situations
- Entry & exit procedures
- Hazards
- Supervision requirements
- Do's & don'ts of safe working
- Common HV & LV equipment
- Back-up systems
- Legislation
- Definitions
