

## Hot Work - OSHA Standards

---

**Duration** 30 Minutes

---

**Target group** Oil & Gas Industry  
29 CFR 1910.146

---

**Prerequisites** No prerequisites are required to sit this course.

---

**Objective** LO1: Define hot work and associated hazards  
LO2: Describe the risk of abnormal oxygen levels when carrying out hot work  
LO3: Identify the risk of using flammable and combustible materials while carrying out hot work  
LO4: Describe how to control hot work hazards  
LO5: Explain the different types of permit needed for hot work  
LO6: Describe safety precautions for hot work

---

**Contents** The course is available in the following languages: US English; Turkish; Spanish.  
This course aims to provide you with an awareness of the hot work and its dangers. You will learn about the hazards associated with hot work and how to control them. You will identify the risk of flammable and combustible materials, as well as fluctuating oxygen levels and you will also be able to explain the different types of permits required for hot work. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

---

**Exam** The assessment is taken during the course and is within the expected duration.
