- LO7: Explain how carcinogens are classified under the GHS
- LO8: Explain how acute toxicity is classified under the GHS
- LO9: Describe GHS chemical and safety labels

Contents

The course is available in the following languages: US English; Turkish
The aim of this course is to introduce the Globally Harmonized System which is used to classify and label chemicals.
Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

Exam The assessment is taken during the course and is within the expected duration.
