

COSHH Assessor

Duration	1 day
Target group	With by far, the majority of companies having provided COSHH awareness training for their staff, many have already put in place COSHH assessors. COSHH assessors provide the important link within the safety management system, thereby minimising the potential harm to people. At RelyOn Nutec Onsite, we have carefully engineered an assessors training package, which has the flexibility for adjustment to suit your requirements.
Prerequisites	Not applicable for this course
Objective	This course is aimed at delegates who are responsible for Assessing the safe use of substances within the workplace, and all other responsibilities under the COSHH regulations and code of practice. Delegates will be provided specific techniques which should be used when assessing usage of substances, reporting their findings and also of the further action required to be taken. This course is a combination of both theory and practical
