

## PUWER Assessor

<b>Duration</b>	1 day
<b>Target group</b>	With Work Equipment accounting for high proportion of accidents within the workplace, a company's remit is to reduce these situations as much as possible. Personnel unfortunately continue to be cut, bruised, burnt, crushed, electrocuted and so on due to many reasons, some of which are due to operating equipment in which they have not been trained or there are no instructions/labels available for its safe use.
<b>Prerequisites</b>	Not applicable for this course
<b>Objective</b>	We will train your assessors to review your standards, enabling them to implement changes where required. The training will involve theoretical and practical elements which will give the candidates the knowledge and skills to perform workplace assessments and be effective assessors in their organisation. The training can be tailored to suit clients requirements and can be carried out on their premises using their internal procedures and paperwork.
<b>Contents</b>	Examples of how PUWER applies Suitability of work equipment Frequency and maintenance requirements of work equipment Information and instruction requirements for the use of work equipment Training and competence requirements for the use of work equipment Dangerous parts of machinery and common accidents and statistics Isolations and machinery controls Marking of machinery requirements Inspection of plant and equipment in conjunction with inspection documentation
<b>Exam</b>	<p>On successful completion the delegate will have shown a good working knowledge and the required skills to perform workplace assessments and be effective assessors in their organisation.</p> <p>On successful completion of this course delegates will be issued an In House Training providers certificate</p>
