Control Room Operator Emergency Response Training

Duration	2 - 3 days
Target group	Experienced or new Control Room Operators (CRO) who require Emergency Response Training, to allow them to be assessed against the OPITO CRO Emergency Response standard.
Prerequisites	There are no pre-requisites for this course, although an understanding of control room operations is essential.
Objective	The aim of the CRO Emergency Response Training course is to introduce delegates to their roles and responsibilities as a CRO, during an emergency in a simulated environment.
Contents	Theory: CRO Roles and Responsibilities during an emergency Intro to Emergency Response Hazards Communications Emergency Procedures and Checklists Stress Management Practical: Introduction to the simulator equipment and software. A number of realistic emergency scenarios covering: 1.Threat to life, 2.Threat to installation, 3.Threat to the environment.
Exam	Delegates will be awarded a RelyOnNutec CRO Emergency Response Training certificate and performance appraisal once they have successfully completed the training programme. Courses are conducted at RelyOnNutec training centres in Aberdeen
