

OFE033

Combined FOET with CAEBS & EBS including Escape Chute Training

Duration	1 Day
Target group	All personnel who hold a valid BOSIET or FOET certificate who are required to have the skills to use both a CAEBS and EBS during offshore helicopter travel and also require the practical knowledge to use an escape chute as a means of alternative escape from an offshore installation.
Prerequisites	All delegates must hold a valid and in-date OPITO-approved BOSIET, BOSIET (with CAEBS), BOSIET (with EBS), TBOSIET, FOET, FOET (with CAEBS), FOET (with EBS) or TFOET certificate. Delegates must hold a valid OGUK (or equivalent) medical AND possess a certificate of fitness to undertake shallow water CAEBS training issued by a registered OGUK doctor OR A valid ENG 1 Seafarer Medical Fitness Certificate* (or equivalent) *please note, that if the Medical Fitness Certificate includes a restriction or is subject to conditions, the delegate must possess a statement from an appropriate registered practitioner stating that this does not result from a respiratory or ENT condition and that it is safe for the delegate to participate in shallow water CAEBS training.
Objective	The objective of this course is to provide all delegates with the opportunity to practice and demonstrate emergency response skills which are not possible to practise during drills, exercises and emergency training offshore.
Contents	The FOET with CAEBS and EBS including Escape Chute Training covers the following areas: Helicopter travel: • Practical procedures in place for helicopter emergencies, with a focus on escaping from a helicopter during ditching. • Use of CAEBS in dry conditions and shallow water. • Use of EBS in underwater ditching scenarios • In water survival techniques First aid: • Practical knowledge of emergency first aid procedures including CPR Firefighting and self-rescue: • Practical use of handheld fire extinguishers and self-rescue techniques to aid escape from low visibility and smoke filled areas Escape chute: • Theoretical knowledge and safe use of an escape chute.
Exam	The course is a mix of both practical and theoretical sessions during which

The course is a mix of both practical and theoretical sessions during which delegates will be required to demonstrate their knowledge and

understanding of the course contents. Upon completion of the course, delegates will be awarded with an OPITO-approved FOET with CAEBS certificate and an OPITO-approved FOET with EBS certificate. Delegates will also receive a RelyOn Nutec certificate for Escape Chute Training. Certification is valid for 4 years. Prior to expiry delegates must undertake the FOET with CAEBS and EBS including Escape Chute Training course to remain certified.
