

Digital BOSIET with CAEBS

Duration	1 day
Target group	This training programme is designed to meet the initial offshore safety and emergency response training requirements for personnel new (or returning) to the offshore oil and gas industry who will be supplied with a compressed air emergency breathing system (CA-EBS) during offshore helicopter travel
Prerequisites	<p>Delegates must complete all online elements contained in the BOSIET (with CA-EBS) on line programme - link to the online programme will be sent to delegates on course booking.</p> <p>Delegates must attend training centre for formal assessment of all learning outcomes within 90 days of completing the online elements.</p> <p>Delegates must hold a valid OGUK (or equivalent) medical AND possess a certificate of fitness to undertake shallow water CAEBS training issued by a registered OGUK doctor OR A valid ENG 1 Seafarer Medical Fitness Certificate (or equivalent)</p>
Objective	<p>The objectives of the BOSIET (with CA-EBS) TDigital training are that delegates will be able to:</p> <ul style="list-style-type: none"> (a) Identify the generic hazards which are specific to offshore oil and gas installations, potential risks associated with those hazards, and how controls are put in place to eliminate or reduce risks. (b) Identify key offshore related safety regulations and explain the basic safety management concepts (c) Demonstrate, in a simulated environment, that they can use the safety equipment, and follow procedures in preparing for, and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching (d) Demonstrate sea survival and first aid techniques (e) Demonstrate that they can effectively use basic firefighting equipment, and practise self-rescue techniques in low visibility situations, to include smoke filled areas.
Contents	<p>Delegates will complete the theoretical content of the training programme via completion of the BOSIET (with CA-EBS) on-line programme prior to attending training centre to observe live demonstrations, and complete the assessment of the training programme in the below modules:</p> <p>Safety Induction Helicopter Safety and Escape Sea Survival and First Aid Firefighting and Self Rescue</p>
Exam
