

ZOTCAD028

IWCF Level 4 Well Intervention Pressure Control with Subsea Module

Duration	5 Days
-----------------	--------

Target group	Level 4 is designed for experienced Single Intervention Discipline Subsea Supervisor/Engineer, Subsea Well Services Supervisor/Well Site Leader, and/or Subsea Completion Supervisor/Service Leader.
---------------------	--

Prerequisites	The candidate must be pre-registered with IWCF and able to provide his/her 6-digit IWCF Candidate Registration (CR) Number.
----------------------	---

Objective	The aim of the IWCF Level 4 course is to develop the candidate's knowledge and understanding of subsea well intervention pressure control. The Level 4 course focuses on the duties and responsibilities of an individual working in a supervisory role.
------------------	--

Contents	The module is delivered through presentation of a series of interactive lectures supported by videos and animations, supplemented by a classroom workbook and further self-study exercises.
-----------------	---

Exam	<p>The course includes compulsory training and assessment in Completion Equipment, Completion Operations, Coiled Tubing Operations, Wireline Operations, and Subsea Well Intervention.</p> <p>Successful completion of the course and a pass mark of 70% or above in all IWCF written assessments will result in IWCF Level 4 certification which is valid for two years.</p>
