

NEN 3140 Skilled Person Advanced Training (STIPEL) (Adaptive e-learning + practical)

Duration	1 day classroom + elearning
Target group	This is an advanced training day for participants who have previously completed a NEN 3140 Qualified Person course and want to prepare optimally for an official STIPEL exam.
Prerequisites	This course is exclusively designed for individuals who have already completed a NEN 3140 Skilled Person training. Senior professionals can also take it as a refresher course in preparation for the STIPEL exam.
Objective	Before the on-site day, the participant will receive a comprehensive practice exam through our adaptive eLearning system. This practice exam must be completed in advance, and the instructor will analyze the results. On the on-site day, we will evaluate the practice exam questions and address additional key topics that may be covered in the STIPEL exam. These sessions will be interspersed with practical exercises in our practice room.
Contents	<p>Based on the results of a pre-taken practice exam, the content of the classroom day is customized, incorporating both theoretical and practical exercises.</p> <p>The schedule for the day is as follows:</p> <p>Morning session:</p> <ul style="list-style-type: none">- Evaluation of the practice exam- Preparation for the STIPEL exam <p>Afternoon session:</p> <ul style="list-style-type: none">- Practical exercises
Exam	For those who eventually want to obtain STIPEL certification, booking this separately is possible. In our training offer, you can find the 'STIPEL Examination Skilled Person (EN)' separately. A recognised external examiner administers the STIPEL exam. After successful completion of the STIPEL exam, the participant will obtain his or her certification as a Skilled Person by NEN 3140.
