

ATEX awareness

Duration 45 minutes

Target group Other Industries (military; leisure; aviation; public; others; etc.)

Prerequisites No prerequisites are required to sit this course.

Objective

- LO1: Outline the two ATEX Directives
- LO2: Define explosive atmospheres
- LO3: Introduce the Workplace Directive
- LO4: Describe organisational and technical measures
- LO5: Describe how to carry out a risk assessment for explosive atmospheres
- LO6: Explain coordination duties
- LO7: Explain the explosion protection document
- LO8: Identify the different types of zones
- LO9: Introduce the Equipment Directive
- LO10: Explain the ATEX equipment classification system
- LO11: Identify ATEX equipment markings
- LO12: Explain the obligations of manufacturers, authorised representative importers and distributors

Contents

The aim of this course is to introduce you to the ATEX Directives. You will be provided with information that will enable you to comply with the minimum safety requirements for workplaces that use, and equipment used within, explosive atmospheres.

Exam

The assessment is taken during the course and is within the expected duration.
