

## Familiarization S-cape descending device

<b>Duration</b>	1 hour
<b>Target group</b>	People who work on offshore installations which are equipped with the S-Cape personal descending system
<b>Prerequisites</b>	<p>Being a supplementary training the same prerequisites will be required as for the training it is combined with.</p> <p>No extra prerequisites are required.</p>
<b>Objective</b>	The S-cape familiarisation training is developed to familiarise people with the workings of the S-cape descending system. The training is a practical oriented training and the aim is that delegates are able to make an independent descent with the S-cape descending system.
<b>Contents</b>	<p>During the training the delegates will be explained:</p> <ul style="list-style-type: none"><li>- The reason for this system</li><li>- Storage and descend points offshore</li><li>- All the elements of the S-cape descending system</li><li>- Workings of the S-cape descending system (by demonstration)</li></ul> <p>The delegate will practise and demonstrate:</p> <ul style="list-style-type: none"><li>- Donning of the S-cape descending system</li><li>- A descend by using the S-cape descending system</li><li>- A descend by using the S-cape descending system in combination with a liferaft painterline</li></ul>
<b>Exam</b>	<p>The assessment will be done during the practical exercises by visual observations and oral questioning if needed.</p> <p>This training is based on a tailor-made standard. Delegates who successfully complete the training will receive a RelyOn Nutec certificate.</p>
