

Basic Coxswain Lifeboat (conventional & freefall) (NOGEPA 2.7AC&F)

Duration	3 days
Target group	Persons who are appointed to the duty as conventional (capsule) or freefall lifeboat coxswain on board an offshore installation.
Prerequisites	<p>No training prerequisites are required.</p> <p>Persons enrolling on this course must be able to show a valid offshore medical certificate prior to participating in practical exercises.</p>
Objective	The objective of the Coxswain Conventional and Free Fall Life Boat training is to train delegates in the preparation, launching and handling of a rescue craft on board an offshore installation, being a conventional and/or freefall lifeboat. Furthermore to act as the responsible person for a lifeboat and its passengers during normal operation and in the event of an emergency.
Contents	<p>The training will consist of the following learning targets:</p> <ul style="list-style-type: none">- Maintaining the lifeboat in an operational condition- To contribute to drills or to carry out drills- React to alarms- Preparation of the lifeboat for launching- Boarding allowance- Launching the lifeboat- Navigation of the lifeboat and moving to a safe area- Communication by radio or other means- Ensuring safety of passengers and lifeboat- Embarking and disembarking of passengers
Exam	Delegates will be assessed against the learning outcomes specified in the NOGEPA training handbook chapter 2.7 Coxswain lifeboat by using direct observation.
