

Working Over Water & Cold Water Survival

Duration 1 day

Target group Offshore / Marine

Prerequisites ITEMS REQUIRED FOR TRAINING:

- When checking in for training, please have your GOVERNMENT ISSUED PHOTO ID with you (ie: Passport or Drivers Licences, etc.)
- Shorts, T-Shirt, and Socks for pool exercises
- Towels, shower facilities on site
- Lock for locker

PLEASE NOTE: Certificates CANNOT be issued unless valid Government issued ID has been presented on Day 1 of training for all RONC courses, including OPITO approved training.

Course activities will involve various physical activities.

Objective Upon successful completion of all training components, in accordance with the Training Standard, trainees will receive a RelyOn Nutec Canada certificate that is valid for three (4) years and a electronic wallet card certificate. The certificate indicates "Working Over Water".

Contents The course consists of 8 hours of training. The delegates training will consist of classroom instruction followed by a practical pool session.

The topics outlined below are what will be covered during the classroom and practical sessions:

- Identifying hazards associated with personnel transfers in a marine environment
- Safe and proper techniques to transfer to and from a vessel under a variety of conditions
- The correct method of climbing a pilot rope ladder
- Conditions which make it unsafe to undertake a marine transfer
- Sea survival techniques in the event that they enter the water during transfer
- Basic instruction on the use buoyancy aids and rescue equipment including pre-use inspections

By the end of training all candidates will have a better understanding of the requirements for safe transfer procedures, be able to make safe assessment of weather conditions, and have a sound awareness for the safety of personnel and themselves during transfer operations.
