

Tropical Further Offshore Emergency Training

Duration	1 day.
-----------------	--------

Target group	This Product is to meet the offshore safety and emergency response training requirements for personnel new (or returning) to the offshore oil and gas industry in a tropical environment
---------------------	--

Prerequisites	<p>Training entry and medical entry requirements must be met. The T-FOET is open to persons who have a valid (in-date) OPITO-approved BOSIET, BOSIET (with CA-EBS), TBOSIET, FOET, FOET (with CA-EBS) or TFOET certificate.</p> <p>Training activities contained within this Product may include physically demanding and potentially stressful elements.</p> <p>All personnel who participate in such activities must be capable of participating fully. Trainees will undergo a medical screening by completing an appropriate medical declaration form at center.</p>
----------------------	--

Objective	<p>The objectives of the T-FOET Training are that learners will be able to:</p> <ul style="list-style-type: none">a) Demonstrate, in a simulated environment, that they can use the safety equipment and follow procedures in preparing for and during helicopter emergencies with particular focus on escaping from a helicopter following ditching.b) Demonstrate that they can use basic firefighting equipment effectively, and use self-rescue techniques in low visibility and completely obscured visibility situations e.g. smoke filled areas.c) Demonstrate that they can perform basic first aid.
------------------	--

Contents	<p>The following units covered during this course are:</p> <ul style="list-style-type: none">1.Further Helicopter Safety and Escape - Tropical2.Further Firefighting and Self Rescue3.Further Emergency First Aid
-----------------	---

Exam	The learners will need to complete the 3 mandatory T-FOET units
