

## OBSMX004

## **Tropical Further Offshore Emergency Training**

| Duration      | 1 day.  |
|---------------|---|
| Target group  | This Product is to meet the offshore safety and emergency response training requirements for personnel new (or returning) to the offshore oil and gas industry in a tropical environment  |
| Prerequisites | Training entry and medical entry requirements must be met. The T-FOET is open to persons who have a valid (in-date) OPITO-approved BOSIET, BOSIET (with CA-EBS), TBOSIET, FOET, FOET (with CA-EBS) or TFOET certificate.  |
|               | Training activities contained within this Product may include physically demanding and potentially stressful elements.  |
|               | All personnel who participate in such activities must be capable of participating fully. Trainees will undergo a medical screening by completing an appropriate medical declaration form at center.   |
| Objective     | The objectives of the T-FOET Training are that learners will be able to:  |
|               | <ul> <li>a) Demonstrate, in a simulated environment, that they can use the safety<br/>equipment and follow procedures in preparing for and during helicopter<br/>emergencies with particular focus on escaping from a helicopter following<br/>ditching.</li> </ul> |
|               | b) Demonstrate that they can use basic firefighting equipment effectively, and use self-rescue techniques in low visibility and completely obscured visibility situations e.g. smoke filled areas.  |
|               | c) Demonstrate that they can perform basic first aid.   |
| Contents      | The following units covered during this course are:   |
|               | <ul><li>1.Further Helicopter Safety and Escape - Tropical</li><li>2.Further Firefighting and Self Rescue</li><li>3.Further Emergency First Aid</li></ul>  |
| Exam          | The learners will need to complete the 3 mandatory T-FOET units   |
