- LO12: The importance of checking that the controls on the equipment are as specified
- LO13: Sources of assistance and specialist support
- LO14: Completion of relevant documentation

Inhoud

The course is available in the following languages: English; Dutch; German

This course is accredited to the OPITO Gas Monitor standard. The course will ensure that personnel preparing to provide safety watch duties through the ongoing monitoring of hot-work sites are equipped with the relevant knowledge to safely carry out the role.

Our course has been developed in bitesize learning chunks for each topic. At the end of each module, there will be an assessment. Delegates will need to pass each module at 80 percent or above. When you pass the course, you will be issued with a certificate which is valid for 3 years.

The aim of this course is to teach you the requirements associated with providing safety watch duties for hot-work sites. On successful completion, you will have the basic knowledge necessary to allow you to carry out the role. You may however be asked to complete further workplace training before being formally appointed.

Examinering This course is CPD approved. The assessment is taken during the course and is within the expected duration.
