Sparrows Offshore Crane Operator Stage 3 Re-Assessment

Duration	6 Hours
Target group	The Sparrows Offshore Crane Operator Stage 3 Re-Assessment is designed for delegates who hold a recognised and valid Stage 3 qualification gained at an offshore workplace.
Prerequisites	Delegates are required to provide evidence of a valid Stage 3 certificate which will be verified before the re-assessment goes ahead.
Objective	The aim of Sparrows Offshore Crane Operator Stage 3 Re-Assessment is to validate ongoing competence and ensure the delegate meets the required standards for safe offshore crane operations.
Contents	The simulator projects a virtual offshore environment, with assessment of realistic static and dynamic lifting operations designed to suit the operator's experience. The delegate is also challenged to respond correctly to emergency situations and be able to demonstrate underpinning knowledge of safe crane operations.
Exam	On successful completion of the assessment, delegates are issued a certificate for Sparrows Offshore Crane Operator Standard Stage 3 which is valid for two years. The re-assessment must be completed on a two-yearly basis to ensure ongoing competence.
