Sparrows Rigging Loft Management & Lifting Equipment Inspection

Duration 1 Day

Target group The Sparrows Rigging Loft Management & Lifting Equipment Inspection course is aimed at personnel responsible for the issue and control of lifting equipment from a rigging loft.

Prerequisites It is the responsibility of the employer to ensure that candidates elected for this training are currently or soon-to-be responsible for the issue and control of lifting equipment from a rigging loft.

Objective The aim of this course is to provide candidates with a better knowledge and understanding of the legal and practical requirements in running an operational rigging loft and the inspection of lifting equipment.

Contents This course covers:

- Health and safety legislation
- Introduction to rigging loft operations
- Procedural operation of a rigging loft and the inspection of lifting equipment and accessories
- Procedure for the control of quarantined equipment
- Recording and registration of lifting equipment
- Portable lifting equipment inspection procedures
- Inspection of lifting equipment / accessories
- Inspection of standard working at height equipment – full body harness, shock absorbing lanyard
- Inertia reels
- Equipment register and control documents.

Exam A Sparrows certificate will be awarded on successful completion of this course. The certificate is valid for two years.
