

Sparrows Simulator Training Offshore Crane Development Stage 2

Duration	1 Day
Target group	The Sparrows Simulator-based Offshore Crane Development Stage 2 training is designed for personnel who have completed the offshore crane operator Stage 2 or equivalent but are not getting regular exposure to live operations.
Prerequisites	Delegates must hold relevant Stage 2 certification.
Objective	The aim of this course is to enhance the candidate's competence at a Stage 2 level in progressing towards the Stage 3 Offshore Crane Operator assessment. During the Stage 3 assessment the candidate will need to demonstrate that they have the ability to consistently, independently and safely perform this safety critical role of Offshore Crane Operator.
Contents	<p>The course is conducted on a crane simulator and covers the following areas in a simulated offshore environment:</p> <ul style="list-style-type: none">•Health and safety legislation•Safety devices•Safe working loads•British standard hand signals•Rated capacity indicators•Pre-operational checks / shutdown procedure•Practical instruction and exposure covering various operating techniques onboard different types of installations, sea states, environmental conditions, day/night shift scenarios, in order to further develop the candidate in progression towards a Stage 3 assessment
Exam	Following this training, additional Stage 2 development hours can be recorded in the candidate's logbook if held. No certification is issued.
