

## Sparrows Simulator Training Offshore Crane Development Stage 3

<b>Duration</b>	1 Day
<b>Target group</b>	The Sparrows Simulator-based Offshore Crane Development Stage 3 training is designed for personnel who have completed the offshore crane operator Stage 3 or equivalent but are not getting regular exposure to live operations.
<b>Prerequisites</b>	Delegates must hold relevant Stage 3 certification.
<b>Objective</b>	The aim of this course is to enhance the candidate's competence at a Stage 3 level in progressing towards the Stage 3 Offshore Crane Operator reassessment. During the Stage 3 reassessment the candidate will need to demonstrate that they have the ability to consistently, independently and safely perform this safety critical role of Offshore Crane Operator.
<b>Contents</b>	<p>The course is conducted on a crane simulator and covers the following areas in a simulated offshore environment:</p> <ul style="list-style-type: none"><li>•Health and safety legislation</li><li>•Safety devices</li><li>•Safe working loads</li><li>•British standard hand signals</li><li>•Rated capacity indicators</li><li>•Pre-operational checks / shutdown procedure</li><li>•Practical instruction and exposure covering various operating techniques onboard various types of installations, sea states, environmental conditions, day/night shift scenarios, in order to further develop the candidate in progression towards a Stage 3 reassessment</li></ul>
<b>Exam</b>	Following this training, additional Stage 3 development hours can be recorded in the candidate's logbook if held. No certification is issued.
