

OBS811

OPITO Further Offshore Emergency Training (FOET) incl. EBS 5858

Duration 1 Day

Target group This training programme is designed to meet the initial offshore safety and emergency response training requirements for personnel new (or returning) to the offshore oil and gas industry who will be supplied with an emergency breathing system (EBS) during offshore helicopter travel

Prerequisites Valid BOSIET certificate
Valid medical certificate AWMF-S1 (DGMM) or equivalent

Objective This Product provides learners with the opportunity to practise and demonstrate emergency response skills which are not possible to practise during drills, exercises and emergency training offshore.

Contents The objectives of the FOET (with EBS) are that learners will be able to:
(a) Demonstrate, in a simulated environment, that they can use the safety equipment and follow procedures in preparing for and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching.
(b) Demonstrate that they can use basic firefighting equipment effectively, and use self-rescue techniques in low visibility and completely obscured visibility situations e.g. smoke-filled areas.
(c) Demonstrate that they can perform basic first aid.

Further Helicopter Safety and Escape - EBS
Outcome 1: Helicopter Safety and Escape techniques
Outcome 2: Practical Helicopter Escape Techniques

Further Firefighting and Self Rescue
Outcome 1: Raising the alarm and operation of hand-held extinguishers
Outcome 2: Self-Rescue Techniques

Further Emergency First Aid
Outcome 1: Emergency First Aid
Outcome 2: Immediate first aid techniques

Exam Exam acc. OPITO.
