- LO15: Describe the steps to take if exposure occurs

Contents

The course is available in the following languages: US English; Brazilian Portuguese, Mexican Spanish

In this course, you will learn about first aid and bloodborne pathogens, including how they can be controlled, and you will be able to identify who is at risk, and how exposure and transmission occur.

Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

Exam The assessment is taken during the course and is within the expected duration.
