

Control Room Operator Emergency Response

Duration 3 days

Target group Experienced or new Control Room Operators (CRO) who require Emergency Response Training

Prerequisites There are no pre-requisites for this course, although an understanding of control room operations is essential

Language: All courses are delivered in English, but translators can be arranged accordingly.

Health: Prior to attendance at the training centre, delegates are required to complete and sign a medical declaration form in which they declare to be fit enough to participate in all parts of the course. Where a delegate answers YES to any question in Section 1. a doctor's certificate of fitness to participate is required.

PPE: Delegates can bring their own PPE if they wish. For waterborne courses swimming trunks are required.

Objective The aim of the CRO Emergency Response Training course is to introduce delegates to their roles and responsibilities as a CRO, during an emergency in a simulated environment.

Contents

Theory:
CRO Roles and Responsibilities during an emergency
Intro to Emergency Response
Situational Awareness
Communications
Emergency Procedures and Checklists
Stress Management

Practical:
Introduction to the simulator equipment and software.
A number of realistic emergency scenarios covering:
1. Threat to life,
2. Threat to installation,
3. Threat to the environment.

Exam Delegates will be awarded a RelyOnNutech CRO Emergency Response Training certificate and performance appraisal once they have successfully completed the training program.

Validity is 3 years.

Delegates should report to reception for 08.00hrs, course starts at 08.15hrs, unless otherwise stated.
