## Offshore Oil & Gas Industry Minimum Industry Safety Training (MIST)

<b>Duration</b>	2 days										
<b>Target group</b>	This introductory safety training programme is designed to introduce the fundamental safety elements of the offshore oil and gas industry to new starts, giving an appreciation of the potential hazards and controls that might be encountered by personnel offshore. Each module has been designed to focus the delegates attention on their personal responsibility for safety thus influencing their behaviour and attitude towards their co-workers, the installation and the environment.										
<b>Prerequisites</b>	<p>There are no pre-requisites required.</p> <p>Items to Bring: All delegates must bring Photographic I.D. and PASSPORT only (original or copy)</p> <p>Language: All courses are delivered in English, but translators can be arranged accordingly.</p> <p>Health: Delegates must be in possession of a valid medical certificate and must complete a medical questionnaire at the beginning of the course.</p>										
<b>Objective</b>	The aim and objective of the MIST programme is to introduce delegates to the key safety elements required by all employees working in the oil and gas industry. It also ensures the knowledge and understanding of these basic safety elements are maintained and current amongst the existing workforce.										
<b>Contents</b>	<p>Delegates will receive theoretical and practical knowledge in the following areas:</p> <table> <tr> <td>Module 1</td><td>Major Accident Hazards</td></tr> <tr> <td>Module 2</td><td>Workplace Hazards and Personal Safety</td></tr> <tr> <td>Module 3</td><td>Risk Management</td></tr> <tr> <td>Module 4</td><td>Control of Work</td></tr> <tr> <td>Module 5</td><td>Helicopter Safety</td></tr> </table>	Module 1	Major Accident Hazards	Module 2	Workplace Hazards and Personal Safety	Module 3	Risk Management	Module 4	Control of Work	Module 5	Helicopter Safety
