

Management of Major Emergencies (MOME)

Duration	3 days
Target group	This course is aimed at personnel who form part of the Emergency Response organisation onboard offshore facilities and who are required to manage major emergencies. The sessions can be conducted using a generic offshore platform or tailored to specific company or personnel employed on different types of Installations.
Prerequisites	<p>No prior training achievement required. A reasonable command of English language is required</p> <p>ITEMS TO BRING: All delegates must bring Photographic I.D. and PASSPORT only (original or copy)</p> <p>HEALTH: All delegates will be asked to complete a medical questionnaire prior to course commencement.</p>
Objective	To provide persons with responsibility for managing and controlling emergencies an opportunity to practice such operations and processes in a controlled manner. The training will expose candidates to emergency scenarios that can be designed around their actual installations operation and Emergency Response Procedures.
