

## Workplace Violence awareness - OSHA Standards

---

**Duration** 20 Minutes

---

**Target group** Oil & Gas Industry

---

**Prerequisites** No prerequisites are required to sit this course.

---

**Objective** LO1: Identify the different types of workplace violence  
LO2: Identify signs of potential violence and how to respond  
LO3: Explain the importance of the workplace violence prevention program  
LO4: Identify workplace violence hazard prevention and controls  
LO5: Explain how to respond if a violent incident occurs

---

**Contents** The course is available in the following languages: US English; Turkish  
The aim of this course is to inform you about different types of workplace violence, signs of potential violence and how best to respond. You will be able to explain the importance and purpose of a workplace violence prevention program and identify violence hazard prevention and controls. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

---

**Exam** The assessment is taken during the course and is within the expected duration.
