

MBSMY010

## Oil Pollution Preparedness, Response and Co-operation Level 1

<b>Duration</b>	3 days
<b>Target group</b>	This course is aimed at personnel designated to operate oil spill equipment in the event of an emergency.
<b>Prerequisites</b>	It would be an advantage for delegates to have some knowledge or prior study of oil spill response issues and techniques.
<b>Objective</b>	During the course delegates will gain and demonstrate to a level of competence an understanding of the weathering process of oil in the marine environment, be able to implement an efficient shoreline clean-up utilizing different response techniques, selecting appropriate equipment and managing spill response teams on-site. Delegates will also have a knowledge of coordinating implementation.
<b>Contents</b>	<ul style="list-style-type: none"><li>Site and Risk assessments</li><li>Health and Safety</li><li>Selecting the most appropriate response equipment</li><li>Selecting and implementing clean-up strategies</li><li>Environmental issues in spill response</li><li>Waste disposal</li><li>Managing spill response teams</li><li>Dealing with the media</li><li>Record keeping</li><li>Practical exercises and demonstrations</li><li>Theoretical exercises</li></ul>
