

## Tank / Confined Space Entry

<b>Duration</b>	Approx. 60 minutes
<b>Target group</b>	This course is suitable for all employees in the oil and gas industry who are required to work or survey confined spaces.
<b>Prerequisites</b>	All delegates must be in possession of a valid medical certificate.
<b>Objective</b>	This course was developed by the same industry experts responsible for the OPITO Guidelines for Working in Hazardous or Potentially Hazardous Environments. By completing this course, your staff will recognise the hazards associated with confined space entry and the precautions required to take when working in a confined space. This course will provide you with the necessary knowledge to be able to perform your duties safely and responsibly.
<b>Contents</b>	<ul style="list-style-type: none"><li>• Recognise the hazards associated with confined space entry</li><li>• Recall the hazards related with working in confined spaces</li><li>• Identify the controls, precautions and best practice that should be considered for confined space entry and working in confined spaces</li><li>• Recall the emergency procedures that should be considered for confined space entry and working in confined spaces.</li></ul>
<b>Exam</b>	N/A
