

Noise awareness - OSHA Standards

Duration 30 minutes

Target group Oil & Gas Industry
29 CFR 1910.95

Prerequisites No prerequisites are required to sit this course.

Objective

- LO1: Identify common noise hazards
- LO2: State the Noise at Work regulations
- LO3: Describe the human ear and the different noise exposure warning signs
- LO4: State the different recommended noise limits
- LO5: Identify the risks of noise exposure
- LO6: Describe the different noise control measures that can be used
- LO7: Describe the different types of hearing protection

Contents

The course is available in the following languages: US English; Turkish; Spanish.

The aim of this course is to provide you with information on the hazards associated with noise. During the course, we will look at the regulations associated with noise, the different noise levels, the human ear, hazards associated with noisy environments and how we can control this noise. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

Exam The assessment is taken during the course and is within the expected duration.
