---

**Contents**

The course is available in the following languages: US English; Spanish

The aim of this course is to help delegates understand how to enter, work in and exit a confined space safely. You will learn what a confined space is, the hazards of working in confined spaces, the control measures needed to reduce risk and what to do in an emergency.

Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

---

**Exam** The assessment is taken during the course and is within the expected duration.
