<b>Contents</b>	The course is available in the following languages: US English; Turkish; Spanish. The aim of this course is to provide you with an understanding of the TRA process, the need to identify all hazards associated with the work, what a TRA is, how and when it should be carried out, and the responsibilities of each person within the process. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.
