Contenidos

The course is available in the following languages: US English; Spanish
The aim of this course is to provide you with an overview of energy isolations; what they are, when we need them and why we need them; the key roles and responsibilities and the typical 8 steps within the process. Employers should provide additional training when a new hazard/procedure/condition or piece of equipment is introduced into the workplace or "unscheduled" refresher training is recommended as directed to address inadequacies in knowledge and to address unsafe acts/deviations from procedures.

Examen The assessment is taken during the course and is within the expected duration.
