

Course code	IBSRDL631
Course name	Scaffold Safety (OSHA) - Digital Learning
Duration	22 Minutes
Target group	Oil & Gas Industry
Prerequisites	No prerequisites are required to sit this course.
Objective	Understand Scaffold Safety Awareness
Contents	<p>The Occupational Safety and Health Administration is an agency of the United States Department of Labour.</p> <p>The OSH Act covers most private sector employers and their workers, in addition to some public sector employers and workers in the 50 states and certain territories and jurisdictions under federal authority. Those jurisdictions include the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam, Northern Mariana Islands, Wake Island, Johnston Island, and the Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act.</p> <p>Scaffolds are a common method used to perform work in elevated areas. While generally safe, scaffolds can still present serious risks. Understanding and following safe work practices during the construction, use, and disassembly of scaffolds can prevent injuries and damage to equipment. In accordance with 29 CFR 1926-subpart L</p>
Exam	The assessment is taken during the course and is within the expected duration.
