## IWCF Level 2 Drilling Well Control (Surface & Subsea)

<b>Duration</b>	4 Days
<b>Target group</b>	<p>The Level 2 course is designed for candidates currently working in roles which may directly contribute to the creation, detection or control of a well influx. Level 2 Drilling Well Control training and certification is recommended for those working in roles such as Roughneck, Derrickman, Barge Engineer, BOP/Subsea Engineer, Mud Logger or Wellsite Drilling Data Engineer, and many others.</p> <p>Please note: IWCF training levels 2 to 4 are designed to be sequential and first-time candidates are expected to complete Level 2 before progressing to Level 3 or 4. However, the training levels are also designed to be role-specific and dependent on the candidate's work experience. For guidance and advice on which level of training you are eligible for, please get in touch.</p>
<b>Prerequisites</b>	<p>The candidate must be pre-registered with IWCF and able to provide his/her 6-digit IWCF Candidate Registration (CR) Number. Prior certification is not required but previous direct or indirect involvement in drilling operations is assumed. Please get in touch with us to discuss candidate suitability if you have any doubts or queries.</p>
<b>Objective</b>	<p>The aim of this course is to provide a basic understanding of the features of drilling a well and the fundamental principles involved in maintaining well control.</p>
<b>Contents</b>	<p>The course is delivered through presentation of a series of interactive lectures supported by videos and animations, supplemented by a classroom workbook and further self-study exercises. The course is delivered over 4 days and includes IWCF written assessments on the final day.</p>
<b>Exam</b>	<p>2 written papers: Equipment and Principles &amp; Procedures.</p> <p>Successful completion of the course and a pass mark of 70% or above in all IWCF written assessments will result in IWCF Level 2 certification which is valid for five years.</p>
