Gas Monitor (OPITO Approved)

Duration	60 Minutes
Target group	Oil & Gas Industry
Prerequisites	No training prerequisites are required to sit this course. OPITO requires that the delegate sitting this course provide photographic ID and their date of birth before starting this training. Your identification documents are required to validate your identity. The following documents are accepted: Passport Driving Licence Form of government issued ID What should I do to confirm my identity? Take a "selfie" by holding your ID card Card holder name and ID card should match and be clearly visible Your ID must be next to your face Please note: Your image provided to us will be deleted from our records after verification is complete.
Objective	Unit 1 (OIS-105) - Gas Monitoring Outcome: Providing Safety Watch Duties
Contents	The course is available in the following languages: English; Dutch; German; Spanish This course is accredited to the OPITO Gas Monitor standard. The course will ensure that personnel preparing to provide safety watch duties through the ongoing monitoring of hot-work sites are equipped with the relevant knowledge to safely carry out the role. Our course has been developed in bitesize learning chunks for each topic. At the end of each module, there will be an assessment. Delegates will need to pass each module at 100 percent. When you pass the course, you will be issued with a certificate which is valid for 3 years. The aim of this course is to teach you the requirements associated with providing safety watch duties for hot-work sites. On successful completion, you will have the basic knowledge necessary to allow you to carry out the role. You may however be asked to complete further workplace training before being formally appointed.
Exam	The assessment is taken during the course and is within the expected duration.
