Contents

This course has been designed to provide staff at all levels of the organisation with a solid understanding of fire safety in the workplace, from both employer and employee perspectives.

You will learn about the specific role, responsibilities, and duties of the Fire Warden. Following this, you will your build knowledge and understanding on the theory of fire, how it starts, and how it can spread in different situations. You will also gain valuable practical guidance on fire prevention, workplace firefighting equipment, and the correct procedures to follow in an emergency situation.

Exam The assessment is taken during the course and is within the expected duration.
